

## Distribution and Transport

**PRESTIGE**  
working with initiative

Prestige enjoys long established relationships with transport companies, such as Royal Mail, TNT, Fed Ex and DPD as well as smaller local providers.

We are not, however, locked into any particular services provider, so will always source and pass on to you the most competitive quotes available and suitable for your business.

When applicable we can call on our own transport and consolidate deliveries to minimise costs.

### Storage

We provide clients with flexible storage options from our fully manned, secure warehousing sites in Clacton, Essex, and Corby, Northamptonshire, encompassing in excess of 120,000 square feet of space.

We cater for large and small consignments, short and long term, and can provide collection and delivery services if required. Importantly, we do not require a minimum commitment from you.

Our storage locations are important. They enable us to reduce overheads, a benefit we pass on to our clients, while still being able to quickly and easily access major transport routes. We also have the added benefit of being ideally located to receive consignments from Europe and the Far East, either by ship or road.
